American Integrated Security Group Acquires Raving Fan Technologies of Tyler, TX

Leading Systems Integrator grows national security company with additional presence in Texas

College Point, NY – October 27, 2016 – American Integrated Security Group (AISG), North America’s fastest growing full service security systems integrator headquartered in College Point, NY, is proud to announce the successful acquisition of Raving Fan Technologies of Tyler, TX.

Raving Fan Technologies (RFT) was founded in 2009 and after seven years, Owners and President, Connie Jo Coker and Vice President, Steve Gause, grew the company through four company acquisitions, adding a host of services and clients. RFT is an experienced cabling and fiber optics installation service company, providing comprehensive systems for data, voice, video, and cabling to more than 145 customers in healthcare, government, education, financial, and retail markets. Coker, Gause, and RFT employees will join the AISG team. The terms of the deal between the two companies were not disclosed.

“Raving Fan Technologies is a well-respected company,” said AISG President, Levy Acs. “Like AISG, RFT has a great tradition of providing excellent service to its customers. Through smart acquisitions, the company has grown and expanded its service offerings with the latest in network electronic technology.”

“Finding the right company to trust with our customers was paramount,” said RFT President, Connie Jo Coker. “We feel American Integrated Security Group is well positioned to make the transition as seamless as possible for our customers. AISG is a great business with an outstanding reputation and similar mindset for quality and support.”

The RFT Tyler office will operate alongside AISG’s Dallas office in Texas. Other AISG locations include New York, Florida, California, and Ohio. “This acquisition is a perfect fit for AISG as it helps us increase our reputation as the premier full service security provider in Texas. We are very excited to expand our footprint in Texas and look forward to growing with the superb team that is already in place,” Acs said.

About AISG

American Integrated Security Group (AISG) is a highly regarded systems integrator delivering timely solutions for today’s security challenges. AISG specializes in the design and deployment of open platform integrated systems including IP video surveillance, access control, intrusion detection, perimeter protection and a full range of related wireless security technologies. The American Integrated Security Group’s in-house central station is a state of the art command post delivering the latest in interactive 24/7 monitoring services. Schools, hospitals, national retailers, critical infrastructure sites, hospitality and more, trust AISG to deliver security solutions that exceed requirements and expectations.
